Mark Hilliard at The Lens Work Gallery
mark@thelensworkgallery.com or www.thelensworkgallery.com

If you've ever wanted to explore, experience and photograph the hidden alleyways, gardens and graveyards of Old Charleston, mark your calendar and join us for this long weekend workshop in a place that exudes a passion for times of old in this modern world.

During our stay, you will have the opportunity to capture elements of Charleston and the Old South in full color as well as infrared. Visit two lighthouses and fall in love with the amazing Magnolia Plantation & Gardens!

This workshop will include in-the-field instruction and classroom presentations from **Jamie Konarski Davidson** and **Mark Hilliard**, professional nature & fine art photographers based in North and South Carolina.

Whether you love the landscapes and scenics, seascapes or gardens or have a passion for the fine details in flowers, you'll get all these and more!

Prepare to be filled to overflowing with incredible photo opportunities, learning and sharing with fellow photographers.
